*Date:* 7/13/04

*Bulletin Number:* 2004-09I

**TO:** Manufactures' Representatives, District Sales Managers, Regional Managers, Technical & Service Personnel, Service Agents and Sales & Marketing Personnel

**SUBJECT:** Oil Burners/Tanks

As of March, 1<sup>st</sup> 2004, All Lochinvar Oil-Fired Water Heaters will be built without burners. Previously a "B" or "L" suffix was used to identify units with or without burners. This is no longer available. All burners are to be ordered under a separate part number. The new burners are an AFG type Beckett burner, the AF type Beckett burner that has been used in the past is no longer compatible and should not be used.

Please note: When ordering a new unit a burner must be ordered separately. The old AF type burners are not to be used with the new units and will **not work**. The following cross reference is provided to clarify any ordering questions you may have:

#### **(New) Water Heater**

BRE031  
BRE052  
BRE070

#### **Burner**

BNR1031  
BNR1052  
BNR1062

#### **(Old) Water Heater**

BRE032-B  
BRE051-B  
BRE070-B

#### **Burner**

BNR1060  
BNR1061  
BNR1062

NOTE: The 70 gallon model number will change to reflect the "B" and "L" suffix change. However, the dimensional information as well as the burner type will not change.
