HIGH EFFICIENCY COMMERCIAL CONDENSING BOILERS

5 MODELS FROM 399,000 TO 800,000 BTU/HR

94% THERMAL EFFICIENCY

5:1 TURNDOWN RATIO

STAINLESS STEEL WATERTUBE HEAT EXCHANGER

SMART SYSTEM W/CASCADING SEQUENCER

CONXUS REMOTE CONNECT CAPABLE

A SMART CHOICE FOR CONDENSING BOILER PERFORMANCE
A HISTORY OF INNOVATION

For nearly 80 years, Lochinvar, an American company, has been a leader of innovation and high-efficiency water heating. Through Lochinvar’s pride in leadership and commitment to excellence, the company has continually improved year after year.

Today, Lochinvar touts the broadest line of high-efficiency water heating solutions, a world-class research & development department, comprehensive service with every sale and industry-leading training through Lochinvar University.

That’s why no one brings it all together quite like Lochinvar.

NO ONE BRINGS IT ALL TOGETHER LIKE LOCHINVAR

Lochinvar is the industry leader that other leading companies call upon for the most advanced and efficient water heating products in the world. For that reason, Lochinvar is trusted to go beyond the call of duty to find a solution for every project, no matter the size. You will not find a water heating company that works harder or cares more.

AN INDUSTRY LEADER IN THE MAKING, 1954.
A SMART CHOICE FOR CONDENSING BOILER PERFORMANCE

The KNIGHT® XL®, engineered with Lochinvar’s exclusive SMART SYSTEM™ control and an array of other innovative features, places it far ahead of any commercial heating boiler in its class. It promises and delivers ultimate ease of installation and maintenance. With up to 94% thermal efficiency, low-NOx emissions and a fully modulating burner, it is the best “green choice” for today’s environmentally focused market.

Five modulating/condensing stainless steel KNIGHT XL boilers are available with 399,000–800,000 Btu/hr inputs and remarkably small space-saving footprints. All are equipped for direct-vent installation with air intake and exhaust runs up to 100 feet using PVC, CPVC, Polypropylene or AL29-4C vent materials. This range of choices is ideal for light-duty applications such as small hotels, schools and office buildings. For higher-demand applications, up to eight KNIGHT XL units can be installed utilizing the built-in cascading sequencer to deliver up to 6.4 million Btu/hr heating capacity.

THE KNIGHT XL BOILER reflects Lochinvar’s constant commitment to providing all the options you need to serve every application.

ADVANCED NEGATIVE REGULATION TECHNOLOGY

KNIGHT XL safely and reliably operates with supply gas pressure as low as 4 inches water column. Negative Regulation (Neg/Reg) technology automatically adjusts fan speed that ensures the correct volume and mix of fuel and air throughout the firing range.

TWO-IN-ONE STAINLESS STEEL HEAT EXCHANGER

A primary heat exchanger combined with a secondary heat exchanger captures flue gas heat and condenses to utilize available latent energy. The stainless steel, pH-tolerant design features a weld-sealed assembly with no O-rings or gaskets and does not require special glycol. ASME Section IV approved and stamped.

FULLY MODULATING BURNER

The SMART SYSTEM allows fully modulating combustion with 5:1 turndown. The burner can fire as low as 20% of maximum input and modulates the firing rate up to 100% as demand increases. The burner is a single stainless steel assembly covered with woven steel mesh and fires in a 360° pattern along the entire length of the primary heat exchanger. This allows the compact KNIGHT XL to exceed the capacity of units with larger multiple burners.
SELECTABLE CASCADE OPTIONS
When multiple KNIGHT XL boilers are installed together, the SMART SYSTEM built-in sequencer can be set for “Lead-Lag” cascade or “Efficiency Optimized” cascade operation.

LEAD-LAG CASCADE

The “lead” boiler modulates with demand to capacity. As demand increases, additional boilers fire and modulate to capacity. This continues, with additional boilers firing and modulating to capacity until all units are operating. Every 24 hours, the SMART SYSTEM automatically shifts the lead boiler role to the next in the sequence, distributing lead-lag runtimes equally.

EFFICIENCY OPTIMIZED CASCADE

This feature optimizes the modulation capabilities of the boiler plant while evenly distributing run time across all cascaded boilers. Every 24 hours the SMART SYSTEM automatically shifts the 1st boiler on role to the next in the sequence, distributing run time equally.

SMART SYSTEM Cascade option allows 2 - 8 boilers to be sequenced.

DIRECT VENTING UP TO 100 FEET

KNIGHT XL offers 7 venting options and tremendous flexibility for placement of units within the building, because it permits direct-vent air intake and exhaust runs up to 100 equivalent feet using either PVC, CPVC, Polypropylene or AL29-4C stainless steel vent pipe. A sidewall venttermination kit is shipped standard with every KNIGHT boiler.

7 FLEXIBLE VENTING OPTIONS

*Optional Concentric Vent Kit Sold Separately (for 400-601 Models)
REFINED DESIGN PUTS MORE CONTROL AND INFORMATION AT YOUR FINGERTIPS

Advanced features include:
- Multi-Color Graphic LCD Display
- Navigation Dial
- USB Port
- Ability to control up to three different setpoint temperatures
- Compatibility with Copper-Fin II Non-Condensing Boiler to Create a Front-End Loading System
- Boilers with Different Inputs can be Cascaded Together to Maximize Boiler Plant Turndown
- Modbus Capability (Optional)
- DHW Modulation Limiting
- DHW Night Setback
- 0-10 VDC Boiler Rate Output
- 0-10 VDC Signal to control variable speed boiler pump
- 0-10 VDC System Pump Signal Input
- Heat Demand from 0-10V Input
- Installer Can Program Name and Number into the Boiler
- Installer Adjustable Freeze Protection Parameters
- Separately adjustable SH/DHW Switching times
- Installer access to BMS and ramp delay settings

AT-A-GLANCE COLOR CODING

Normal system operation.

YELLOW SCREEN
Maintenance due • shows the installer’s name and number on the display.

RED SCREEN
Lockout mode.

BOILER CONTROL FROM ANYWHERE

The industry’s most advanced boiler control system now includes the CON·X·US Remote Connect option. See next page for a complete list of SMART SYSTEM™ functions and features.

From wherever you are, the CON·X·US option lets you use any internet-capable device to link up with the SMART SYSTEM on an unlimited number of KNIGHT XL boilers. With CON·X·US, you’re always in touch and in control. Optional CON·X·US control board is sold separately.

» DO REGULAR CON·X·US CHECKS FOR ALL YOUR KNIGHT XL CUSTOMERS, AND LET THEM KNOW YOU’RE MONITORING THEIR BOILER’S PERFORMANCE.

» ADJUST SETPOINTS, DOMESTIC HOT WATER, RESET CURVES, PUMP DELAYS AND MORE, USING THE CON·X·US INTERACTIVE DISPLAY.

» STATUS ALERTS VIA TEXT OR E-MAIL LET YOU KNOW WHEN A KNIGHT XL BOILER NEEDS ATTENTION.

**SMART SYSTEM FEATURES**

- SMART SYSTEM Digital Operating Control
- Multi-Color Graphic LCD Display w/ Navigation Dial
- Three Reset Temperature Inputs with curves for three set point temperature inputs
- Built in Cascading Sequencer for use with 8 Boilers: Multiple Size Boiler Cascade
- Front end loading capability with Copper Fin II
- Low Water Flow Safety Control & Indication
- Low Water Flow Safety Control & Indication
- Hours Running, Domestic Hot Water
- Hours Running, Space Heating
- Domestic Hot Water Prioritization
- DHW tank piped with priority in the boiler loop
- DHW tank piped as a zone in the system with the pumps controlled by the Smart System
- DHW Modulation Limiting
- Separately Adjustable SH/DHW Switching Times
- Building Management System Integration
- 0-10 VDC Input to Control Modulation or Set Point
- 0-10 VDC Input Signal from Variable Speed System Pump
- 0-10 VDC Modulation Rate Output
- 0-10 VDC Input to Enable/Disable call for heat
- Access to BMS Settings through Display
- High Voltage Terminal Strip
- 120 VAC / 60 Hz / 1 Phase Power Supply
- Three sets of Pump Contacts with Pump Relays
- Low Voltage Terminal Strip
- Device Relay Contacts
- Proving Switch Contacts
- Flow Switch Contacts
- Alarm on Any Failure Contacts
- Runtime Contacts

**STANDARD FEATURES**

- 94% Thermal Efficiency
- Modulating Burner with 5:1 Turndown
- Direct-Spark Ignition
- Low NOX Operation
- Sealed Combustion
- Low Gas Pressure Operation
- ASME Stainless Steel Heat Exchanger
- ASME Certified, “H” Stamped
- Gasketless Heat Exchanger
- 160 psi Working Pressure
- Highly efficient, condensing design
- Vertical & Horizontal Direct-Vent
- Category IV up to 100 feet PVC, CPVC, Polypropylene or AL29-4C Vent
- Factory Supplied Sidewall Vent Termination
- Smart System Control
- Other Features
  - On/Off Switch
  - Adjustable High Limit w/ Manual Reset
  - Automatic Reset High Limit
  - Flow Switch
  - 50 psi ASME Relief Valve
  - Flue Temperature Sensor
  - Low Air Pressure Switch
  - Temperature & Pressure Gauge
  - Adjustable Leveling Legs
  - Condensate Trap
- Zero Clearances to Combustible Material
- 10 Year Limited Warranty (See Warranty)
- 1 Year Warranty on Parts (See Warranty)

**OPTIONAL EQUIPMENT**

- Alarm Bell
- Condensate Neutralization Kit
- Concentric Vent Kit (KB400-KB601)
- BMS Gateway to LON or BACnet IP
- High & Low Gas Pressure Switches w/ Manual Reset (KB501-KB801)
- Variable Speed Boiler Circulation Pump MODBUS Communication
- Multi Temperature Loop Control
- Low Water Cutoff w/ Manual Reset & Test
- Constant Speed Boiler Circulation Pump Stainless Steel Vent Kits (KB701-KB801)
- Stack Frame
- CON-X-US BACnet MSTP
- Programmable System Efficiency Optimizers
- Night Setback DHW Night Setback
- Anti-Cycling
- Outdoor Air Reset Curve
- Ramp Delay
- Boost Temperature & Time
- Three Pump Control
- System Pump With Parameter for Continuous Operation
- Boiler Pump With Variable Speed Pump Control
- Domestic Hot Water Pump
- DHW Thermostat Contacts
- 3 Space Heat Thermostat Contacts
- System Sensor Contacts
- DHW Tank Sensor Contacts
- Outdoor Air Sensor Contacts
- Cascade Contacts
- 0-10 VDC BMS External Control Contact
- 0-10 VDC Boiler Rate Output Contacts
- 0-10 VDC Variable Speed System Pump Signal Input
- 0-10 VDC Signal to Control Variable Speed Boiler Pump Modbus Contacts
- Time Clock
- Data Logging
- Hours Running, Space Heating
- Hours Running, Domestic Hot Water Ignition Attempts
- Last 10 Lockouts
- Other Features
  - Low Water Flow Safety Control & Indication
  - Password Security
  - Inlet & Outdoor Temperature Readout
  - Customizable Freeze Protection Parameters
  - Custom Maintenance Reminder with Contractor Info

**FIRING CODES**

- M9 Standard Construction
- M7 California Code
- M13 CSD1 / FM / GE Gap (KB501-KB801)

*Lochinvar should be consulted before selecting a boiler for installations having unusual piping and pickup requirements, such as intermittent system operation, extensive piping systems, etc. The ratings have been determined under the provisions governing forced draft burners.*
