Stainless Steel Indirect Water Heater

by Lochinvar®

## The Newest HERO in the Family - Born in the U.S.A.

LASER Cut Precision

Robotic Welded

Passivated for Protection

R-13.4 Foam Insulated

Introducing Lochinvar's newest member of the family, the Squire® Stainless Steel Indirect Water Heater. With 12 models to choose from in capacities from 30-119 gallons, we are sure to have the right size water heater to fit your application. Plus hybrid systems incorporating solar thermal panels will easily integrate with the Squire models designed with boiler or electric back-up. Squire now features important enhancements that our customers will recognize and benefit from such as a welded and passivated stainless steel tank and heat exchanger, two-inch thick, high-density insulating foam with a tested R Value of 13.4, and best of all an American made product built in Lebanon, TN.

**Squire® Stainless Steel Water Heaters, another Stainless Steel innovation from Lochinvar.**
