

Product Installation Showcase

Lochinvar congratulates Hilton on the completion of their newest resort in Orlando Florida. We are proud to have our high efficiency products installed in this state-of-the-art facility. Our Copper-Fin2 and EnergyRite pool heaters will meet all the challenges of heating the enormous pool and relaxing hot tubs. Power-Fin water heaters with the advanced Smart System control will save on energy costs and provide endless hot water to guests even at peak demand times. Lochinvar's broad product line, years of experience and quality performance is sure to have a solution for any water heating application.
